

Seasonal Restrictions, June 1st –October 31st 1.

1. Campfires allowed only in fire pits surrounded by dirt, rock, or commercial rings and in areas not conducive to rapid fire spread, at a minimum clear of all flammable material within a radius of 3 feet from the edge of the pit and free of overhanging material. Use existing pits wherever possible.
 - a. Campfires must be attended at all times, and completely extinguished prior to leaving.
 - b. Persons with campfires are required to have a tool that can serve as a shovel and one gallon of water in their possession (except in specified developed recreation sites listed in Exhibit A). The intent of this requirement is to ensure individuals with a campfire to have the tools necessary to completely extinguish their campfire per “a” above.
 - c. Portable cooking stoves using liquefied or bottled gas and wood burning stoves equipped with a chimney that is at least five (5) feet in length with a spark-arresting screen consisting of ¼ inch mesh hardware cloth are allowed.
 - d. Use of charcoal briquettes is permitted under the same restrictions as campfires as described above.

Within designated wilderness areas users are encouraged to locate fires such that minimal disturbance would be necessary to meet the clearing requirements identified. Naturally cleared areas, previously used sites, and areas where vegetation is nonflammable (green grass) are examples. Possession of a typical backpacking folding shovel (commercially available) meets the intent of a tool as described in item “b” above.
