WEATHER HIGHLIGHT

Temperatures were in the 50s and 60s in western Washington. Most other locations were in the 70s and 80s. Relative humidities on the east side of the Cascades were in the teens and 20s. West side values were in the 30s and 40s with values above 50 near the coast. Very windy conditions were recorded across much of the eastern half of the Geographic Area with some areas affected by gap winds recording wind speeds over 40 miles per hour. West side locations were generally breezy. Light to moderate rain was received in many west side locations while the east remained dry. There was scattered lightning in northwest and northeast Washington. Initial attack was light. Bauer Coulee fire grew to 1,500 acres.
