WEATHER HIGHLIGHT

High temperatures reached the low 90s across southern Oregon, east of the Cascades stayed in the 70-80s, while the west side stayed in the 50-60s. Relative humidity dropped to the single digits in southeast Oregon while the remainder of the east side was in the 20-30s and the west side stayed above 40 percent. Overnight relative humidity recovery in southeast Oregon was poor. Winds were breezy across the Geographic Area with gusts in the 40-50s in the Columbia Basin early this morning. Scattered precipitation fell in the Washington Cascades. No lightning recorded. Initial attack was light with the largest new start growing to 3 acres. Uncontained portions of existing large fires showed an increase in activity towards the end of the burn period.
