Public Use Restrictions lifted on the Umatilla National Forest

PENDLETON, Ore. (Oct. 23, 2024) — Recent precipitation and cooler weather conditions across the Umatilla National Forest has decreased fire danger, prompting fire managers to lift all public use restrictions pertaining to recreational chainsaw use, smoking, and off-road travel, effective Oct. 23, 2024.

The public is encouraged to practice safe campfire principles when recreating in dispersed and developed campsites. Forest officials recommend the following campfire safety precautions:

- Campfires should be in fire pits surrounded by dirt, rock, or commercial rings and in areas not conducive to rapid fire spread. All flammable material shall be cleared within a 3-foot radius from the edge of the pit and free of overhanging material. Use existing pits wherever possible. (Note: within the Grande Ronde Scenic Waterway, campfires must be contained in a fireproof container (i.e., "fire pan") with sides of a height sufficient to contain all ash and debris, and all ashes and debris must be removed from the river corridor. Do not use or construct fire pits or rock fire rings within the Scenic Waterway.)
- Campfires must be attended at all times, and completely extinguished prior to leaving.
- Persons with campfires should carry a tool that can serve as a shovel and one gallon of water in their possession. The intent of this recommendation is to ensure individuals with a campfire to have the tools necessary to completely extinguish their campfire.

The public's awareness of the current fire danger and cooperation is essential. Recreationists, firewood cutters, hunters, and other forest users can all help by closely adhering to restrictions, operating safely and cautiously and keeping up to date on the latest orders and regulations.

Please check with a local Oregon Department of Forestry (ODF) office for public use restrictions on lands protected by ODF. Additional information is also available at one of the interagency dispatch centers' webpages:
