Oregon Department of Forestry officials decrease public use restrictions from extreme to high

As of 12:01 a.m. on September 3, 2026, the Oregon Department of Forestry Northeast Oregon District will reduce the fire danger to High due to moderating weather conditions and recent precipitation. Cooler temperatures, sustained rainfall, and a favorable short-term weather outlook have contributed to decreasing fire danger across the region.

These restrictions affect private, state, county, municipal, and tribal lands in Union, Baker, Wallowa, and Umatilla counties along with small portions of Malheur, Morrow, and Grant counties within the Northeast Oregon Forest Protection District. This area encompasses approximately 2 million acres of protected lands.
