

NOTICE

PHASE C PUBLIC-USE RESTRICTIONS for the Wallowa-Whitman National Forest until further notice as of July 23rd, 2026

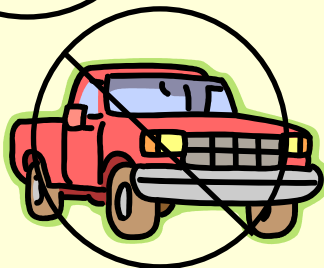

Campfires are prohibited. Liquid and bottle gas stoves only. Separate year-round rules within a ¼ mile of the Wild and Scenic portions of the Snake River are exempt from this order (fs.usda.gov/alerts/wallowa-whitman/alerts-notices). Public lands in Idaho administered by the Wallowa-Whitman follow separate Idaho Fire Restrictions (idahofireinfo.com/p/fire-restrictions.html)

No internal combustion engine operation, except for motor vehicles. Use of generators with a spark arresting device where the generator is located in the bed of a pickup or in the center of an area free of all flammable material within a 10 foot diameter is allowed.

Smoking is allowed only in enclosed vehicles and buildings, developed recreation sites, or cleared areas.

No off-road or off-trail vehicle travel. No travel on roads not cleared of standing grass or other flammable material (pictured below); no vehicle travel on those Forest Service roads where access has been impeded or blocked by earthen berm, logs, boulders, barrier, barricade or gate, or as otherwise identified in the Fire Order.

***See official Forest Order for a complete description of prohibitions and exemptions.**

With tinder dry forest fuels and high daytime temperatures, conditions are prime for potential human-caused forest fires. We ask that you be extremely careful when out on the forest. For more information on public-use restrictions, contact your local Forest Service office or visit our websites:
