Wood burning stoves equipped with a chimney that is at least 5-feet in length with a spark-arresting screen are also allowed only in the above **designated campgrounds and recreation sites.**

Use of Chainsaws or other Internal Combustion Engines (other than a motor vehicle) **are not allowed** unless under contract/permit in which case the operator must follow the conditions of the permit. Generators will only be allowed when located in an area that has been cleared at least 10-feet in diameter of all flammable material or when factory installed in a recreational vehicle and the exhaust discharge is located in the center of an area at least 10-feet in diameter cleared of all flammable material.

Traveling Off Developed Forest Roads and Trails is not allowed, except for the purpose of traveling to and from a dispersed campsite located within 300 feet of the open and developed road. All motorized travel on roads not cleared of standing grass or other flammable material, roads closed by gates, barricades, berms, rocks, or logs is prohibited. Vehicles must be parked in an area that is barren or cleared of all vegetation and flammable material.

No Smoking, except within an enclosed vehicle or building, developed recreation site or while stopped in an area at least 3-feet in diameter that is barren or cleared of all flammable material.

With tinder dry forest fuels and high daytime temperatures, conditions are prime for potential human-caused forest fires. We ask that you be extremely careful when out on the forest. For more information on public-use restrictions, contact your local Forest Service office or visit our websites:
